

9:30	Morning tea	
	Project presentations (There will be a couple of minutes between talks for people to move between rooms if they wish.)	
	Room 1	Room 2
10:00	Simon Fowler: The economics of weed biocontrol	Pen Holland: From scientific models to serious games: play your way to a pest management strategy
10:20	Trevor James (AgResearch): Gallivanting with groundcovers	James Griffiths (DOC): Project Kaka – Understanding the benefits of repeated aerial 1080 applications for animal pest control in the Tararua Forest Park
10:40	Quentin Paynter: Prospects for classical biocontrol of paper wasps in New Zealand	Jackie Whitford & Bruce Warburton: How many trap nights should you trap for?
	5-minute stretch break	
11:05	Shaun Forgie: Dung beetles: where we are at and the way forward	Chris Jones: Serving two masters: modelling economic and biodiversity outcomes from possum fur harvest
11:25	Chris Winks: Biocontrol of <i>Tradescantia</i> in New Zealand – an update	Bruce Warburton & Sam Brown: Possum encounter and interaction rates with traps
11:45	Stanley Bellgard: Kauri dieback and what all the fuss is about	Grant Morriss & Bruce Warburton: A low-cost trap for stoats

Landcare Research
Manaaki Whenua

12:05	Lunch	
13:00	Gary Houliston: Plant DNA diagnostics; what we can and can't do.	Penny Fisher: Pindone residue in rabbits – is it a concern?
13:20	Dagmar Goeke: Molecular identification of weeds	Graham Nugent: Cattle BCG – can cattle herds be protected from Tb?
13:40	John Mangos (MOD) & Paul Peterson: The heather beetle in Tongariro National Park	Wendy Ruscoe: Impacts of ship rats on native invertebrates.
	5-minute stretch break	
14:05	Stefan Gous (Scion): Wilding pines	Dave Latham: Reducing the cost of 1080 operations for rabbit control
14:25	Lynley Hayes: Biocontrol in brief – status of projects funded by the National Biocontrol Collective	Frank Molina: Detection and monitoring of pest mammals using DNA – an overview of EcoGene services
14:45	Quentin Paynter: Broom gall mites and pathogens – does a relationship exist?	Graham Nugent: New insights in possum Tb transmission
15:05	Afternoon tea	
15:30	Question time – ask the panel of experts	
16:30	Drinks and Nibbles	

Note: No proceedings or presentation briefs will be distributed. All attendees will be emailed a link to PowerPoint presentations after completion of this workshop.
