

**NATIONAL
LAND RESOURCE
CENTRE**

National Land Resource Centre

Welcome & introduction

Knowledge and Information on the use of New Zealand's Greatest Asset

Landcare Research
Manaaki Whenua

Opportunity / needs

Engagement

- Partnership
- Understanding needs
- Building a collective vision

Capacity building

- Training
- Secondments, community of practice
- Workshops & events

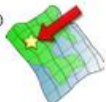

Transforming science

- Consolidated information portal
- Integration & interoperability
- Customisation, visualisation & communication

A gateway to New Zealand's land information and services

Science 	Resources 	News and Events 	Connect 
<p>Projects</p> <p>Across New Zealand a wide range of science projects are taking place in land resources.</p>  <p>Soil and water</p> <p>Soil is the heart of a healthy ecosystem. One of the primary functions of soil is to capture precipitation, storing water for plants to use at a later day.</p>  <p>Land Fragmentation</p> <p>New tools are being developed to help develop consistent national guidelines for monitoring land fragmentation.</p> 	<p>Resources</p> <p>The one-stop shop to authoritative land resource data, tools, information and services.</p>  <p>Technology Transfer Report</p> <p>This paper aims to increase our understanding of the current technology transfer system in New Zealand.</p>  <p>Our Environment</p> <p>Interact with environmental data about your local region and create your own map for interpretation.</p> 	<p>Latest News  </p> <p>Massey Study Shows Harmful Effects of Tillage</p> <p>A three year study at Massey University has confirmed overseas findings that a significant amount...</p> <p>Upcoming Events  </p> <p>IUSS Global Soil C Conference</p> <p>The IUSS Global Soil Carbon Conference is an IUSS Division, Commission and Working Group conference...</p> <p>Latest from NLRC  </p> <p>Urbanisation around Auckland</p> <p>Check out our new video showing the successive waves of urban growth from 1990 to 2008 in...</p>	<p>OneFarm</p> <p>OneFarm is dedicated to increasing farm business management capability.</p>  <p>Fonterra Living Water</p> <p>Fonterra farmers are committed to doing right by the land, looking after it for the next generation.</p>  <p>Online Survey</p> <p>Guidelines for monitoring land fragmentation</p> <p>Complete the online survey here. </p>
