What is an OGC Standard?

A document, established by consensus and approved by the OGC Membership, that provides rules and guidelines, aimed at the optimum degree of interoperability in a given context. It is publically available and free to use.

Influences

- Community requirements
- Member requirements
- Market trends
- Technology trends

CityGML Levels of Detail

”... the nice thing about standards, is that there are so many of them to choose from...”

Source: Andrew S. Tanenbaum, and others ...?

Equally, it can be said – there are so many Standards Development Organisations (SDOs), who’s who in this landscape?

The Geospatial SDO landscape

Domain related geospatial standards

Many, like IHO,
DGIWG, WMO,
ICAO, but also
OGC and
ISO/TC 211

Generic geospatial standards

ISO/TC 211,
OGC,
but also others
...

Basic ICT standards and other cross-
discipline standards

W3C, OASIS,
IETF,
IEEE, ISO/IEC
JTC1, OMG,
etc.

OGC Alliance Partners

A Critical Resource for Advancing Standards

... and others

Trend watching in the OGC *New Domain Working Groups*

- Smart Cities
- Maritime
- Agriculture
- Big Data
- Mobile & Location Services
- Health
- Point Cloud
- Land Administration

Get involved

- Don't be passive, be part of standards innovation
- This is not just about the big guys fighting it out – standards are ultimately chosen by a consumer
- Ask for your solutions to be “open” standards compliant
- Build your offerings in partnership with Standards organisations
- ***Standards should be driven by innovation and achieved through collaboration***

Follow us!

And use our “free” resources
